Challenges to the Health System

Balancing Capacity and Demand

Focus on Non-elective care

Limited investment in new facilities

Growing elective waiting lists

How do we unlock available capacity?

Staffing

Estate

The Solution

Vanguard
healthcare

**Harnessing
Flexible
Infrastructure**

The Five Year Forward View

Multispecialty Community Provider:

- Led by Primary Care
- GPs, Nurses, AHP
 - Consultants:
 - Type of contract
 - Access to inpatient facilities

Primary and Acute Care System:

- Merging of two systems
- Removing the Primary/Secondary divide
- Redesign of delivery of care

Day Surgery

Potential for in excess of 75% elective surgery

BADS Directory of Procedures:
•Day Case
•Treatment Room

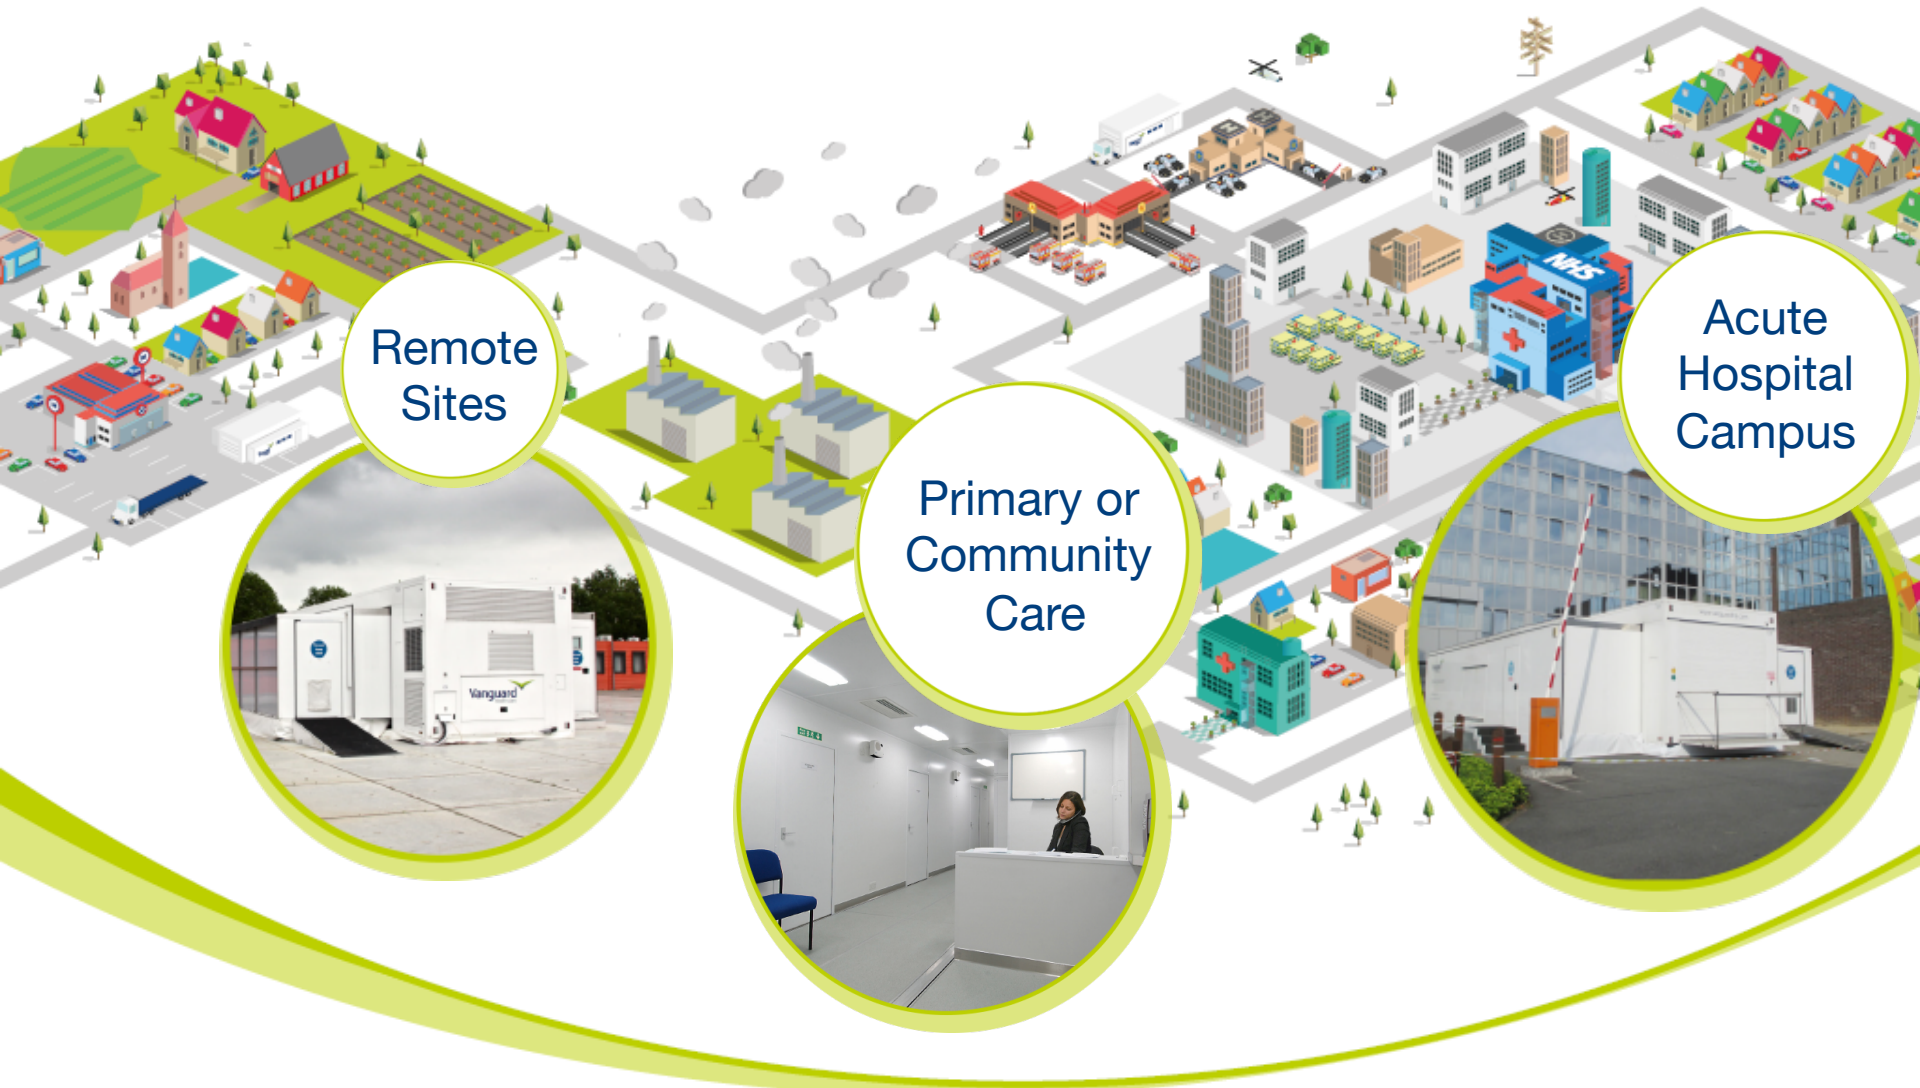

Risk of Complications /admission determines suitability for remote site

Diagnostic procedures:
•GI endoscopy
•Cystoscopy
•Musculoskeletal

Models

Remote Sites

Primary or Community Care

Acute Hospital Campus

Clinical Governance

Primary/Community Care:

Structures in place

Additional audit, pathways etc

Remote Site:

Independent model-private clinic

Shared governance model

Acute Hospital Campus:

Under umbrella of acute trust, all aspects already in place

Who delivers care?

General Medical Practitioner:

Dual training eg. FRCS

Specific training - RCGP accredited training

Hospital specialist - Consultant:

Seconded from Acute trust / merged model

Employed by GP / Community

Self employed (private practice)

Other healthcare Professionals:

Podiatrists

Nurses - Consultant / extended role

The Vision

High quality, safe,
patient centred care
close to where they
live

More efficient use of
NHS funds by
simplified pathways,
reduced hand offs,
and fewer
cancellations due to
acutes and
emergencies

Professionals working
as part of a smaller
community where new
patterns of
relationships lead to
improved patient care
and job satisfaction

Commissioning/Co-operation

Open-minded
commissioning

Co-operation between
provider organisations

Incentives to reflect a
shared approach
